PROFESSIONAL SUMMARY

Full-stack developer and ERP specialist with 3+ years of web development experience, focused on B2B ERP and SaaS applications. Experience spans project management, finance, accounting, sales, and inventory workflows. Builds business applications with Angular, React, Next.js, TypeScript, Supabase, and PostgreSQL, including AI integrations and workflow automation.

TECHNICAL SKILLS

Frontend: Angular, React, Next.js, TypeScript, JavaScript, HTML, CSS, SCSS, Tailwind CSS
State and forms: RxJS, Angular signals, reactive forms, reusable components
Backend and data: REST APIs, Next.js API routes, Supabase, PostgreSQL
AI and automation: AI feature integration, n8n, lead capture and CRM workflows
Testing and tools: Playwright, Jasmine, Jest, Git, GitHub, Vercel, Figma

PROFESSIONAL EXPERIENCE

Frontend Developer | Horecons
Ghazir, Lebanon | 2025 - Present

- Develop TheBridge B2B ERP features across project management, finance, accounting, sales, and stock management.
- Build reusable Angular standalone components, data tables, filters, and reactive forms with TypeScript, RxJS, and signals for business workflows.
- Integrate REST APIs and implement keyboard-accessible forms and Jasmine unit tests for sales order validation.
- Deliver React and Next.js event applications for UAE clients; automate lead capture with n8n.

Frontend Developer | Interphase
Lebanon | 2024 - 2025

- Developed Kanban, form builder, and website builder modules for Populus using Angular and TypeScript.
- Implemented Kanban task states, columns, filters, automation, and client-side state management.
- Created reusable website sections and reactive forms with RxJS validation and semantic HTML.

SELECTED PROJECTS

AI Lead Generation and CRM Pipeline | Next.js, TypeScript, Supabase

- Built lead capture, pipeline stages, and follow-up features with Next.js API routes and Supabase; stored outreach drafts generated by AI in lead records.

Restaurant QR Menu and Ordering | Next.js, Supabase, PostgreSQL

- Built a multi-tenant application with mobile-first menus and ordering, plus tenant-specific controls for categories, products, and pricing.

ITLegend Course Player | Next.js, TypeScript, CSS Modules, Playwright
itlegend-course-player-taupe.vercel.app | github.com/ahmadkassar1/itlegend-course-player

- Built a responsive course player from Figma with search, YouTube lessons, saved progress, PDF worksheets, and practice exams. Tested core flows, keyboard navigation, and viewport boundaries with Playwright; deployed to Vercel.
