PROFESSIONAL SUMMARY

Full-stack developer and ERP specialist focused on B2B ERP and SaaS applications. Builds business workflows across project management, finance, accounting, sales, and inventory using Angular, React, Next.js, and TypeScript, with project-level work in Supabase, PostgreSQL, AI feature integration, and workflow automation.

TECHNICAL SKILLS

Frontend: Angular, React, Next.js, TypeScript, JavaScript, HTML, CSS, SCSS, Tailwind CSS

State and forms: RxJS, Angular signals, reactive forms, reusable components

Backend and data: REST APIs, Next.js API routes, Supabase, PostgreSQL

AI and automation: AI feature integration, n8n, lead capture and CRM workflows

Testing and tools: Playwright, Jasmine, Jest, Git, GitHub, Vercel, Figma

PROFESSIONAL EXPERIENCE

Frontend Developer | Horecons

Ghazir, Lebanon | Oct 2025 – Feb 2026

- Built TheBridge B2B ERP features across project management, finance, accounting, sales, and stock management.
- Developed reusable Angular standalone components, data tables, filters, and reactive forms with TypeScript, RxJS, and signals.
- Integrated REST APIs and implemented keyboard-accessible forms and Jasmine unit tests for sales-order validation.
- Delivered React and Next.js event applications for UAE clients and automated lead capture with n8n.

Frontend Developer | Interphase

Lebanon | Mar 2024 – Sep 2025

- Developed Kanban, form-builder, and website-builder modules for Populus using Angular and TypeScript.
- Implemented task states, columns, filters, automation, and client-side state management for Kanban workflows.
- Created reusable website sections and reactive forms with RxJS validation and semantic HTML.

SELECTED PROJECTS

AI Lead Generation and CRM Pipeline | **Next.js, TypeScript, Supabase**

Built lead capture, pipeline stages, and follow-up features with Next.js API routes and Supabase; stored AI-generated outreach drafts in lead records.

Restaurant QR Menu and Ordering | **Next.js, Supabase, PostgreSQL**

Built a multi-tenant application with mobile-first menus and ordering, plus tenant-specific controls for categories, products, and pricing.

ITLegend Course Player | **Next.js, TypeScript, CSS Modules, Playwright**

Built a responsive course player from Figma with search, YouTube lessons, saved progress, PDF worksheets, and practice exams. Tested core flows, keyboard navigation, and viewport boundaries with Playwright; deployed to Vercel.

EDUCATION AND TRAINING

Programming Advices: Non-degree C++ and algorithms coursework, Level 2 (2025) | Scrimba: Learn React coursework (2025) | 42 Beirut: Four-week assessment participation certificate (2024)

LANGUAGES

Arabic: Native | English: Professional working proficiency
